

## ANGUS COUNCIL

## PERSONNEL &amp; PROPERTY SERVICES COMMITTEE

18 JUNE 2002

## EARLY RETIRAL/VOLUNTARY REDUNDANCY

## JOINT REPORT BY THE CHIEF EXECUTIVE AND DIRECTOR OF FINANCE

**ABSTRACT**

This report advises of the number of employees released on early retiral/voluntary redundancy and ill health retirement during the period 2001/2002.

**1. RECOMMENDATION**

The Committee note the number of employees released from Angus Council on the grounds of early retiral/voluntary redundancy and ill health during the period 2001/2002.

**2. INTRODUCTION**

In accordance with the decision of the Personnel and Property Services Committee of 15 June 1999 the Personnel Services Manager and Director of Finance are remitted to report on an annual basis on the number of early retirements from the Council on the grounds of efficiency/redundancy and ill health.

**3. EARLY RETIRALS 2001/2002**

The number of employees released on early retiral/voluntary redundancy during 2001/2002 was 3. This compares with 12 in 2000/2001, 8 in 1999/2000 and 9 in 1998/99.

A total of 11 employees were released during 2001/2002 on ill health grounds having been certified as being permanently unfit for work by the Council's Medical Adviser. Of these 11 employees, 10 were members of the Pension Scheme and will be in receipt of an ill health retiral pension whilst the remaining 1 was not a member. The comparative numbers released on ill health grounds in 2000/2001, 1999/2000 and 1998/99 were 26, 32 and 26 respectively.

The Committee is asked to note that the figures only relate to those employee categories covered by the Local Government Pension Scheme and therefore exclude teaching staffs.

**4. FINANCIAL IMPLICATION**

Employees will normally only be released on the grounds of *early retiral/voluntary redundancy* when there is a saving after taking account of enhanced payments and the cost of early payment of the accrued pension and accrued lump sum. In exceptional circumstances other operational considerations will be taken into account.

The full costs of early retirement/redundancy to both the revenue budget and the Pension Fund have been identified to ensure that each Department supporting an efficiency or redundancy early retiral has regard to additional costs, including the strain on the Fund as well as other operational considerations. The Pension Regulations that have operated in 2000/2001 only require the Council to reimburse the cost of additional years to the Pension Fund, together with any capitalised strain on the Fund

Lump sum costs (including redundancy and strain on the Fund costs) associated with the early retirements granted in 2001/2002 amounted to £22,484.12. The whole of this sum was recovered through savings in staff costs.

The cost of *ill health retirements* is borne by the Pension Fund. However, the greater the number of retirements the greater will be the strain on the Fund and this may result, in the longer term, in an increase in Employers Pension contributions borne by the Council. The Personnel Services Manager is continuing to monitor ill health retirements in order to identify any underlying trends.

**5. HUMAN RIGHTS IMPLICATIONS**

There are no human rights implications associated with the terms of this report.

**6. CONSULTATION**

The Director of Law & Administration has been consulted on the terms of this report.
