QUARTERLY STAFFING REVIEW

REPORT BY CHIEF EXECUTIVE

ABSTRACT

This report provides an overview of the council's staffing levels and vacancy management and of establishment changes during the period 1 July to 30 September 2012.

1 RECOMMENDATION

The committee consider the terms of this report.

2 BACKGROUND

Each quarter, as part of the council's performance management arrangements, a report containing the council's quarterly joint staffing watch return to the Scottish Government, a comparison of actual staffing figures with budgeted numbers, and an overview of vacancy management and establishment changes within departments is submitted to committee.

This report presents this information for the period 1 July to 30 September 2012.

3 QUARTERLY STAFFING WATCH

The information given in the September **quarterly staffing watch return** to the Scottish Government is shown at Appendix 1.

The FTE figures supplied by departments to inform the return are shown at Appendix 2. This appendix also includes the budgeted FTE figures for 2012/13 enabling the Sub-Committee to make **comparison between actual staffing figures and budgeted numbers**.

The committee will note that in September departments were operating with an actual FTE 245.6 less than budgeted FTE.

In considering this information members are asked to note that the staffing watch return is based on employees on the payroll on a particular date and a post could be vacant on the survey date but filled shortly thereafter.

The **overview of the management of vacancies within departments** covering the period 1 July to 30 September 2012 is shown at Appendix 3.

Appendix 4 summarises **changes to departments' establishments**, approved under delegated authority, during the period 1 July to 30 September 2012.

4 FINANCIAL IMPLICATIONS
